

“ *The greatest responsibility and obligation a person has is to give their children the maximum possibility to fulfill their potential, for this is the only true happiness.*

Dynamic Tutoring Program is an invaluable resource for parents to fulfill this sacred obligation.

Rabbi Abraham J. Twerski, M.D. ”

TAX DEDUCTIBLE CHARITY

The Dynamic Tutoring Program is under our tax-deductible non-profit organization, Simcha Connection which is a 501 c 3 organization. Please write your checks to Simcha Connection and in the memo line specify your donation is for the DTP.

DYNAMIC TUTORING PROGRAM

Learning with joy!

Innovative tutoring programs in Dade County helping children achieve their scholastic potential

www.hacheded.com

MISSION

Teach them How to Fish

People need motivation. Children need it more!

We learn how to motivate people from one's desire to eat fish. There are two ways to help a person who wants to eat fish. One is to provide him with fish dishes. The other method is to teach him how to catch fish. The teacher inspires him to be self motivated to catch fish. This skill will accompany the person for life.

The Dynamic Tutoring Program teaches children to develop motivation. This enables

students to be independent for the rest of their life. The DTP provides funding for tutors to stimulate children's interest in studying. We offer tutor funding to schools for children from low income homes. These tutors will help your child do their homework and more importantly, boost their self esteem. The tutors help the children achieve good grades without an ongoing push from parents and teachers.

DYNAMIC TUTORING PROGRAM

The Dynamic Tutoring Program offers tutors for children who are falling behind their grade level in school. This hurts their self esteem, creates depression, and leads to negative results. Some drop out of school, others seek other activities which are damaging spiritually and physically. Their behavior calls for help. We offer our assistance to all children from first grade through high school, in Dade County.

"We are here to help"

A failing student requires tutoring assistance several times weekly to stimulate their interest and positive progress. We need to reach our children before it is too late. The faster we address this problem, the greater chance we have to see positive results.

PROBLEM

Many parents are struggling financially and can't afford to pay a tutor. They are overwhelmed with bills and expenses. The thought of hiring a tutor is beyond their wildest dreams.

SOLUTION

We will pay for children from low income homes to have a tutor help them weekly. We have an arrangement with local schools to fund their tutoring program for children from low income families. We will monitor the progress and celebrate their positive accomplishments. We currently have over 100 students enrolled in our program.

PARTNERS

Please join our efforts to boost the children of today and the future of tomorrow. We ask you to join us in helping these children. You'll see first hand what your money is accomplishing. You'll be happy knowing you've made a lifetime difference. Every child has tremendous potential, we need to reach their inner strength.

The cost of a child's weekly tutoring needs is: **\$120.00**

The cost of a child's monthly tutoring needs is: **\$500.00**

The cost of a child's yearly tutoring needs is: **\$5,000.00**
