President Orthodox Rabbinical Council of South Florida

בעזרהי"ת ט"ו טבת תשס"ח

To whom it may concern:

Rabbi Faivish Dalfin has extended great effort in establishing and developing a number of worthy Jewish institutions and his efforts have met with a great measure of success. He has presently established an unusually important organization - "HACHESED".

Rabbi Dalfin's professional expertise has been recognized by those who know him and by those whose Torah knowledge and observance have been strengthened and elevated and by those who benefit from his charitable works.

I have known Rabbi Feivish Dalfin since his settling here in South Florida eighteen years ago. I admire his achievements in scholarship and in piety as he follows the paths of his parents and those of his illustrious ancestors.

"HACHESED" supplies food packages to local needy families both young families and elderly couples. "HACHESED"s activities in Israel extends financial support to widows and orphans.

I urge those who are approached to lend a strong generous hand to these worthy undertakings. You will have a share in the great merit of this institution. This will grant you blessings in all facets of life, materially and spiritually.
