## This Week's News

Shaboos Parshas Titzave, 5768 – Zayin Adar

The seventh of Adar is the birthday and yartzeit of Moshe Rabbeinu. The Talmud lauds the individual whose birth and death is on the same day. It demonstrates completeness.

We learn from Moshe's greatness, that every Jew makes a big difference. It is written in *Tanya*, that every Jew possesses a spark from Moshe's soul. This enables us to be motivated and serve G-d with more love and awe.

How do we connect with the strength of Moshe? By studying more Torah, and loving every Jew.

Shalom and good Shabbos,

Rabbi Faivish Dalfin

## Hachedesed Activity Report

February 11-16

This week we are involved in an emergency mitzvah. Many of us are unaware that there are Israeli young ladies, who are involved with Arab men.

These women are initially treated nicely, however after several years the truth comes out. The women are abused. In this instance, the mother of three children had her teeth knocked out and finally escaped to her Jewish friend in Jerusalem. Of course, they have no belongings and are in total poverty.

1. Hachedesed joined the efforts of Yad L'achim, another outreach organization, and arranged a safe haven for this family. Thus far it cost us \$2,000.00.
2. We sent \$1,500.00 to distribute food and clothing to 100 families in Beitar, Israel. These families are living below the poverty level.
